

A STATE-OF-THE-ART SYMPOSIUM ON

# AIDS

PRACTICAL CONSIDERATIONS FOR  
THE PRIMARY CARE PHYSICIAN

*Presented by:*

The International Center for Interdisciplinary Research on  
Immunologic Diseases (CIRID)

Georgetown University School of Medicine  
and

The National Institute of Allergy and Infectious Diseases  
National Institutes of Health  
Public Health Service, DHHS

Masur Auditorium  
Clinical Center, NIH

Saturday, October 22, 1983  
9:00 a.m.-4:30 p.m.

## ABOUT THE SPONSORS

### NIAID

The National Institute of Allergy and Infectious Diseases (NIAID) conducts and supports research aimed at the prevention, diagnosis and treatment of infectious, allergic, and immunologic diseases. This broad spectrum of diseases includes sexually transmitted diseases, Acquired Immune Deficiency Syndrome, other life-threatening disorders such as encephalitis and hepatitis, and chronic, debilitating diseases such as asthma and systemic lupus erythematosus.

At the direction of the United States Congress, four Centers for Interdisciplinary Research on Immunologic Diseases (CIRIDs) were established in 1978 to conduct basic and clinical research on immunologic diseases. To meet the growing need for a targeted and coordinated national program, research at the CIRIDs is aimed specifically at improving the diagnosis and treatment, as well as the prevention, of asthma and other allergic and immunologic diseases. This research is multidisciplinary, designed to integrate and coordinate research projects in allergy and clinical immunology with research in other specialties such as rheumatology and infectious diseases.

In addition to supporting collaborative basic and clinical research, CIRIDs are active in education and community outreach programs.

### GEORGETOWN UNIVERSITY CIRID

The International Center for Interdisciplinary Studies of Immunology at Georgetown University is dedicated to research, education and patient care activities in asthma and the allergic diseases, pulmonary and infectious diseases, the immune deficiencies and the rheumatoid diseases. The Immunology Center is one of the Centers funded under the Center for Interdisciplinary Research on Immunologic Diseases (CIRID) program of the National Institute of Allergy and Infectious Diseases. The Center is concerned not only with the development of basic and clinical research and education, but also with the vital aspects of clinical outreach and technology transfer. Sociologic, epidemiologic and ethical concerns are also of importance.

## CONFERENCE OBJECTIVES

The purpose of this program is to provide the primary care physician with the most current update on the Acquired Immune Deficiency Syndrome (AIDS). We will begin with the historical aspect of Acquired Immune Deficiency Disorders and progress to a discussion of the specific recent outbreak of AIDS, its epidemiology and suspected modes of transmission. Also included in the program will be a discussion of the implications for the various high risk groups. Clinical presentations of opportunistic infections and malignancy (e.g. Kaposi's Sarcoma) will be presented, together with the nature of the latest immunologic defects and approaches to therapy. Ethical, legal and psycho-social issues will also be included.

### COURSE DIRECTORS

Joseph A. Bellanti, M.D.  
Professor of Pediatrics and Microbiology  
Director, International Center for Interdisciplinary  
Research on Immunologic Diseases (CIRID)  
Georgetown University School of Medicine

Kenneth W. Sell, M.D., Ph.D.  
Scientific Director  
National Institute of Allergy and Infectious Diseases  
National Institutes of Health

### CME CREDIT

"As an organization accredited for continuing medical education, the Georgetown University School of Medicine, Office of Continuing Medical Education, designates this continuing medical education activity as meeting the criteria for 5.5 credit hours in Category 1 of the Physician's Recognition Award of the American Medical Association."

To obtain your CME Certificate, please return your completed evaluation and course participant forms to staff at the registration desk following adjournment of this course.

## FACULTY

**Arthur J. Ammann, M.D.**  
Professor of Pediatrics  
Department of Pediatric  
Immunology/Rheumatology  
Division  
University of California  
Pediatrics Research Center  
San Francisco, California

**W. Emmett Barkley, Ph.D.**  
Director, Division of Safety  
National Institutes of Health

**Joseph A. Bellanti, M.D.**  
Professor of Pediatrics and  
Microbiology  
Director, International Center  
for Interdisciplinary Research  
on Immunologic Diseases  
Georgetown University School  
of Medicine

**Anthony S. Fauci, M.D.**  
Chief, Laboratory of  
Immunoregulation  
National Institute of Allergy  
and Infectious Diseases  
National Institutes of Health

**David K. Henderson, M.D.**  
Hospital Epidemiologist  
Clinical Center  
National Institutes of Health

**John Bernard Henry, M.D.**  
Dean, Georgetown University  
School of Medicine

**Lawrence T. Hill, M.D.**  
Associate Professor and  
Associate Director,  
Department of Radiation  
Medicine  
Georgetown University School  
of Medicine  
Chairman, G. U. Task Force  
on AIDS and Advisor to the  
Mayor's Task Force  
(Washington, D.C.)

**Richard M. Krause, M.D.**  
Director  
National Institute of Allergy  
and Infectious Diseases  
National Institutes of Health

**Clifford H. Lane, M.D.**  
Senior Investigator  
Laboratory of  
Immunoregulation  
National Institute of Allergy  
and Infectious Diseases  
National Institutes of Health

**Dan L. Longo, M.D.**  
Chief  
Experimental Immunology  
Section

National Cancer Institute  
National Institutes of Health

**Paul R. McCurdy, M.D.**  
Director, American Red Cross  
Blood Services,  
Washington, D.C. Region;  
Professor of Medicine,  
Georgetown University  
School of Medicine

**Vijaya L. Melnick, Ph.D.**  
Professor of Biology, University  
of the District of Columbia  
Adjunct Professor of Pediatrics  
and Senior Research Associate  
at the International Center  
for Interdisciplinary Research  
on Immunologic Diseases  
Georgetown University School  
of Medicine

**Kenneth W. Sell, M.D., Ph.D.**  
Scientific Director  
National Institute of Allergy  
and Infectious Diseases  
National Institutes of Health

**John P. Utz, M.D.**  
Professor of Medicine  
Georgetown University School  
of Medicine

**LeRoy B. Walters, Ph.D.**  
Director, Center for Bioethics  
Kennedy Institute of Ethics  
Georgetown University

**Deane L. Wolcott, M.D.**  
Assistant Professor In Residence  
Dept. of Psychiatry &  
Biobehavioral Science  
UCLA School of Medicine  
Los Angeles, CA
